Description

- Keenlon Iron Man - 1, with all chassis made of stainless steel, is solid and good to protect carry-on equipments and motors.
- High-quality micro Gear motors designed with space for 4 encoders.
- Designed with plenty compatible mounting holes, for servo motors and arduino board.
- Up to 3 lbs. carrying capability

Keenlon Iron Man - 1 has a 4WD stainless steel chassis. Together with Keenlon Rarudino Microcontroller, it can be freely driven on common roads. Keenlon Iron Man – 1 allows you to mount the modules above or inside the chassis as your applications.

Supplier Product Code: SKU KCH0201

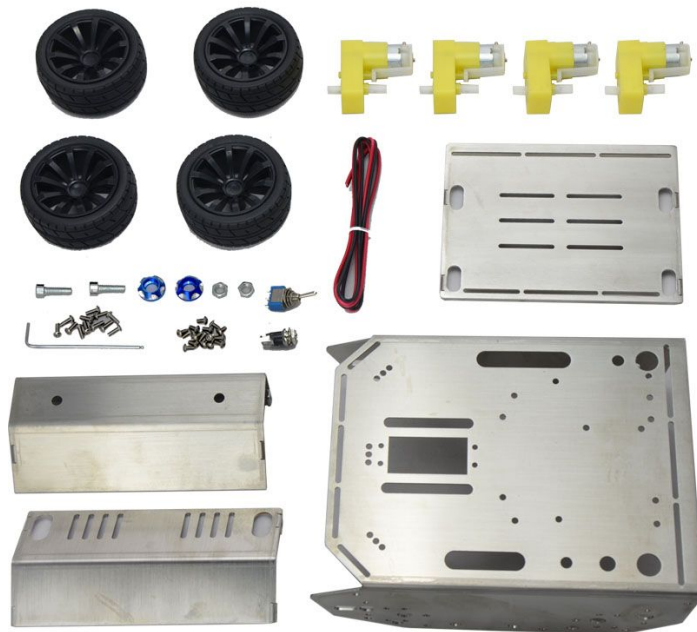

Address: Room 102-103, Bldg 2, #900 Zhongshan North Rd, Zhabei 200070, Shanghai, China.

What's Included

- A steel cover kit
- Four gear motors
- Four wheels

Specifications

- Ground clearance: 13mm
- Recommended voltage: 3 - 7.4 V
- Stall current at 6V: 2 A per motor
- No-load current at 6 V: 200 mA per motor
- No-load output shaft speed at 6 V: 160 RPM
- Wheel diameter: 68mm
- Wheel width: 25mm

Dimensions

- Size: 193mm × 220mm × 72mm
- Weight: 1.15 kg. (2.5 lbs.)
